

the Castle at **BEAR CREEK**

PRIMARY SUITE - *a true retreat*

This main-floor primary bedroom suite feels like a retreat - a place to completely relax and enjoy comfort and privacy. This elegant suite is separated into three unique spaces: a sunken sitting area provides a perfect getaway, the sleeping area feels spacious and cozy, and the bath has been transformed to an elegant spa with high ceilings, heated Italian travertine floors, and natural light.

When you open the sliding door onto a Juliet balcony in the sleeping area, the sounds of the creek will fill the room as you sleep. Enjoy the gas fireplace in the retreat room which also opens to a private cliff-top patio and a private hot tub with soaring views of the creek below.
